HIGHLY RESISTANT

Quartz sinkware is designed to last, incredibly durable and is heat, scratch and stain resistant - ensuring it looks good for many years.

MODERN DESIGN

One of the biggest pros of quartz sinks is simply how stylish they are. These sinks can be a focal point of your kitchen with their clean, modern design.

HYGIENIC

Being smooth and nonporous, quartz has bacteria and odour resistant properties. It's the ideal material for a kitchen sink.

QUIETER

Quartz sinks have natural soundproofing capabilities that make them much quieter than stainless steel and other materials. Every sound you made in the sink will all be significantly reduced.

Quartz Sink Care Instructions

Clean Regularly

Wipe down the sink with a soft cloth and mild detergent after each use to prevent stains and buildup of food particles. Avoid using abrasive cleaners or scrubbers that can scratch the surface.

Remove Stains

For tough stains, use a non-abrasive cleaner and a soft-bristled brush to gently scrub the area. Rinse thoroughly with water and dry with a clean cloth.

Avoid harsh chemicals

Avoid using bleach, ammonia, or acidic cleaners that can damage the surface of the sink. If necessary, use a cleaner specifically formulated for quartz surfaces.

Prevent scratches

Avoid using sharp objects on the sink's surface, including knives and metal utensils. Always use a cutting board when chopping food.

Protect from heat

Quartz sinks are resistant to heat, but it's still recommended to use a trivet or hot pad under hot pans or dishes to avoid direct contact with the sink's surface.

Maintain the sealant

If your quartz sink has a sealant, periodically check to ensure it's still in good condition. If it's worn or damaged, reseal the sink to prevent water damage.

Luster Pro cleaning oil available from your local dealer or online at Amazon.com, is a specially formulated oil-based cleaning solution. It is perfect for giving your quartz sink that extra shine and sparkle when needed. After thoroughly cleaning and drying, place a small amount in the bowl and wipe all over the surface of the sink with a cloth.
